On February 29, 2016, in the conference hall of Research Station the **Scientific Workshop** was held.

**Aleksey A. Malovichko, Dr. of technical sciences,**

Corresponding Member of RAS (Department of Earth's Sciences (Geophysics)), Director of Geophysical Service of RAS was the honorary guest of the event. During the workshop the Heads of RS RAS research laboratories briefly presented the most important results of research undergone. Dr. Aleksey Malovichko, in his turn, noted that the further scientific and research collaboration between Geophysical Service of RAS and Research Station RAS is very prospective and is of great interest for both sides.
